Table 7 shows that it takes a very long time for immigrants to close the economic gap with natives. In 2007, the table shows that the poverty rate of immigrants matches that of natives after being here for about 26 to 27 years. 28 As for the share in or near poverty, it takes about 28 to 32 years for immigrants to match natives. Because it takes immigrants so long to match the rates of natives, they are much older by that time than is the average native-born American.

Introduction. In the past, examinations of poverty in the United States have typically focused on how broad economic and societal trends and social welfare policy affect either the size of the poor 1 population or the socio-demographic characteristics of those in poverty. Little effort has been made to evaluate the impact of immigration policy on the incidence of poverty in the United States.
