Auditorium - ARCHITECTURE

General Principles of Design:- • The choice of site for an
auditorium is governed by several factors which may be
mutually conflicting, but a compromise has to be struck between
the various considerations involved. The problem of noise is an
important consideration.

Auditorium Literature Study & Design Considerations

Complete egress requirements for the occupant load including
aisle widths, the required number & location of exits, lighting,
rails, etc. are outside a seating manufacturer's area of expertise
and are the responsibility of the architect.
