Ltd. D-Link (Europe) Ltd. First Floor, Artemis Building, Odyssey Business Park, West End Road, South Ruislip, HA4 6QE, United Kingdom

DIR 505 | D-Link UK

[1] The D-Link DI-634M router has two default access accounts, an administrator-level account (username of admin) that is used for router management and a user-level account (username of user) that is used to view data but not make changes.

D-Link Default Password List (Updated December 2020)

Other than similar routers (e.g., the TP-Link TL-WR703N), the D-Link DIR-505 uses the interface eth1 rather than eth0. This means that if you build your own firmware, you must configure /etc/config/network accordingly (option ifname 'eth1'), or you will not be able to connect later on via Ethernet.
