I am putting some aluminum door panels on the car (thanks again jayhudson for the templates :)) and figured while I was in there it might be a good idea to get rid of the electric window motors in favor of manual cranks. I did a search on this and surprisingly came up with limited results. I went to RealOEM and found what I think is the right part (#7 in the pic below).

Power To Manual Window Conversion.....Any Of You Guys Do This?

Replacing power window motors with a manual crank can save money and time replacing continually burned-out motors. Since most automobile models have power windows as an option, the cranking mechanism of the window regulator is typically the same unit or similar. The average backyard mechanic can replace the power ...
