GM 3.4L-207ci-V6 Torque Specifications - TorkSpec ...
I am former gm tech years ago, now heavy truck. Thank you for the generous Tip / Donation. Answer: There is no special valve adjustments on this motor as was the case with the older Chevy small block. Rocker arms are just torqued to specs. The most important thing is that the push rods are installed correctly. They are different lengths.

How to Adjust GM 3400 3.4L Pushrod Rocker Arms
The GM 3900 V6 engine is also called the 3900 High-Value V6 and is part of the High Value engine series by GM. All of the engines in the High-Value series have 60-degree overhead valves. GM manufactured the 3900 V6 as a replacement for the GM 3800 V6. It began manufacturing the 3900 High-Value engine series in the 2006 model of the Pontiac G6 ...
