scientific knowledge—developed in the West rather than elsewhere. In the process he adds considerably to the content of the old Western Civ courses, which would often discreetly ignore the contribution of Christianity and neglect practical matters such as advances in technology and banking.”

How the West Won: The Neglected Story of the Triumph of ...

This book pleasantly surprised me. When I first received *How the West Won: The Neglected Story of the Triumph of Modernity* it seemed to hit all the standard topics dear to American self-styled conservatives: Christianity, capitalism, freedom, political correctness, and those darned Communists in academia trying to muddy the historical waters. Stark checks off all those topics, but he does so in a far more engaging and interesting way than I had expected.
