...

The theory of multiple intelligences differentiates human intelligence into specific 'modalities', rather than seeing intelligence as dominated by a single general ability. Howard Gardner proposed this model in his 1983 book *Frames of Mind: The Theory of Multiple Intelligences*.

### **Theory of multiple intelligences - Wikipedia**

Howard Gardner's *Multiple Intelligences* is a wonderful book, and an argument for the thesis that there is not just one intelligence that people possess but rather multiple intelligences. Gardner defines an intelligence as "an information-processing potential to solve problems or create products that are valued in at least one culture."
