This functional comparative analysis based on reports from thirty-three countries and with references to economic literature deals with the concepts, instruments (including soft law), and sources of corporate governance, and analyzes the regulation and practice of the various actors in corporate governance: mainly the board and the shareholders, but also labor, gatekeepers (in particular the auditors), the supervisors, and the courts.

Comparative corporate governance: the state of the art and ...

Comparative approaches to studying corporate governance must, by nature, deal with the diversity across countries and over time. In this sense, comparative analysis seeks to address corporate governance in relation to its wider institutional environment with a given labor market, capital market, legal system, political system, and so on.

The Academy of Management Annals Comparative and ...

International and comparative scholars define soft law to include aspirational codes of conduct for corporate actors, corporate governance codes of best practices, treaty provisions, trade agreement provisions, and the like, all of "which may provide a conceptual framework for decisionmaking" in the corporate setting "but do not seriously constrain [corporate] decisionmakers."
