Nissan Check Engine Soon Light

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does say service engine soon, but you may not necessarily have to make any major repairs soon.

What Does the Service Engine Soon Light Mean on a Nissan ...

Under normal operation, your Nissan check engine light should come on when you insert the key in the ignition. After 5 seconds or once you start the engine, the light should turn off as long as no fault codes are present. If the check engine light stays on, the problem can be something as simple as a loose gas cap or a faulty oxygen sensor.

Troubleshooting Nissan Check Engine Light | YOUCANIC

The best way to determine why the check engine light in your Nissan came on is to stop by an authorized service center. However, if it's steady, unblinking light, we do recommend checking the gas cap--especially if you've just filled up. A loose gas cap can cause the check engine light to turn on, as will a gas cap with a crack in it.

5 Things to Know About Your Nissan Check Engine Light in ...

Nissan actually has a procedure to access the fault codes and to erase them and reset the computer. The majority of late model cars have a check engine light for the computer and a service engine soon light for required maintenance like oil changes.
