Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

## **OpenOffice.org 3 Writer Guide**

Since OpenOffice.org version 3.0, tables are supported natively in Impress, which means that there is no need to embed a Calc spreadsheet or a Writer text table although in some circumstances it makes sense to do so as the functionalities provided by a Calc spreadsheet are far superior to those provided by an Impress table.

## **Using tables - Apache OpenOffice Wiki**

Apache OpenOffice has several components (Writer, Calc, Impress, Draw, Base...) that share many characteristics on their user interfaces.
