The IMG (Implementation Guide for R/3 Customizing) Lists all actions required for implementing the SAP System. Helps you to control and document the implementation. Please note that the paper version of the IMG is shorter than the online version. In the online system, additional information is provided. The SIMG\_ALL structure is the library that contains all sections for implementing the various components (for example, Materials Management, Sales & Distribution, Financial Accounting).

## **Sap R3 Guide | happyhounds.pridesource**

SAP R/3 is the oldest version of the three SAP systems considered here. The name R/3 comes from the three-level architecture of the software. The first level from the user's point of view is the presentation level on which the user interface is located. Below this is the application level, which represents the business logic.
